FILIPINO HITS LUNA WITH HOE; CRACKS SKULL

(Special Star-Bulletin Correspondence)
HILO, June 25.—At Pauilo on Saturday last, a Filipino attacked Hugh Robertson, a luna, with a hoe, and getting in a hard smash with the implement, fractured the skull of the man and left him unconscious on the ground.

The assault took place in a field where the Filipino and some other men were working. There was no real trouble between the laborer and the overseer, it is claimed, until a few minutes before the attack. The overseer had spoken to the Filipino about his work and had informed him that it was not good enough. That seems to have enraged the Filipino and he managed to deliver the blow.

Robertson was picked up by some men who were sure he was dead as he was unconscious and blood was issuing from his nose, ears and mouth. Then the men took the luna to the railroad depot and from there he was sent in to Hilo to the hospital. Dr. Archer Irwin examined the man and decided that the skull was fractured. One corner of the bone which was sharpened, had been driven through the skull and a deep hole was seen.

On Sunday morning Dr. Irwin operated and removed pieces of bone from the hole. The operation was successful and it is thought that Robertson has a fine chance of recovery. He is conscious now.

The Filipino was arrested and taken to Honokaa where Deputy Sheriff Richard has the man in custody.

ADAM LINDSAY LEAVING HILO FOR MAINLAND

(Special Star-Bulletin Correspondence)
HILO, June 25.—Adam Lindsay, manager of T. H. Davies & Company's Hilo branch, has resigned his position and will depart for the mainland in August. Mr. Lindsay has not enjoyed good health for some time past and has decided to take a long vacation in a different climate.

Mr. Lindsay is going to Oregon, where his family has resided from time to time in the past. He hopes to rest up and regain his health, and it is possible that he may return to the islands sometime in the future. In fact it is arranged that if he ever wishes to return, he can do so, even if not to the Hilo branch of the big firm with which he has been identified for so long a time.

OBJECTS TO BIG ROCKS CRASHING THROUGH ROOF

(Special Star-Bulletin Correspondence)
HILO, June 25.—Contractor J. C. Foss, Jr., does not seem able to keep away from the police court now-a-days, as some of his men appear to be always getting into piliikia. Early in the week it was the case of a dozen men who were charged with working on Sundays on the road contract that brought the contractor to court. That bunch cost the contractor about \$60.

The latest piliikia is the fact that John Brown has sworn to a complaint of malicious injury charging that the building that goes on on the new Kuhia Bay road is dropping rocks of all sizes on his dwelling, which is close to the road. Last week a valuable cow just missed death by a miracle. To make the affair even worse, a few rocks came hurtling through Brown's roof. That was the last straw and the complaint was sworn to.

HAWAIIANS PROUD OF SHOWING AT EXPOSITION

C. H. Brown and Norman Watkins, members of the Hawaiian Legislature, who came here with Governor L. E. Pinkham to attend Hawaii's day at the exposition, are of the opinion that the thousands who witnessed the program will manifest a material interest in the islands' future because of the success of the affair.

Brown, who has been in the islands 22 years and has made 55 trips to San Francisco, said:

"I am convinced that we will have thousands of tourist visitors to the islands this year. The 'Night in Hawaii' was a gratifying success and much credit for the success of the pageants is due to J. Walter Doyle, who handled the advertising and publicity."

"I intend to return to the islands on the Matsonia, but will return on July 6 to attend the convention of the Moose at San Diego."—San Francisco Examiner.

SUGAR-BEET CULTIVATION IN EU- ROPE.

The Magdeburgische Zeitung publishes a telegraphic report from Prague, Bohemia, Austria, under date of May 16, 1915, as follows:

"The International Association of Sugar Factors estimates as follows the reduction in European beet sugar acreage for the coming season: Austria-Hungary, 35.1 per cent; Germany, 31.9 per cent; Holland, 16.3 per cent. The beet cultivation of Belgium is placed at 74,131 acres, a decrease of 44,479 acres, and that of Russia at 2,159,692 acres, an increase of 66,718 acres."

The well known sugar statistician, F. O. Licht, is now estimating a reduction in Germany of at least 20 per cent, but is not inclined to believe that it will be much greater. Consular Report.
